

ENEP and the ENEP Platform: essential tools for the European environment

Roma, April 27th, 2011

*Mario Grosso
ENEP General Secretary*

1) What is ENEP?

2) Introduction to the ENEP Platform

- Established in 2003 by VDI (D), AFITE, (F), VVM (NL), as a Federation of Associations of Environmental Professionals
- Currently about 20 Associations (3 from Italy), representing more than 40.000 environmental professionals
- Promotes networking, “lobbying” (or influencing) with the EU and EC
- Promotes working groups dealing with relevant environmental topics
- Has developed the ENEP Platform
- Currently working on European qualification of Env. Prof.³

ORGANISATION AND STAFF

- General Assembly (two meetings per year)
- Executive Committee (6 meetings per year in Brussels)
- Co-ordinator (1 day per week, based in the UK)
- Project Officer (**NEW**), 1 day per week, based in Brussels

BUDGET

- About 30.000 € per year (1 € per individual member, with min and max thresholds)

What is the ENEP Platform?

A **tool** created by ENEP
for networking and
internal communication

A **web portal** to
store and search
CVs of env. profs.

A **service** offered to all
member associations

A **platform** where
organizations and
experts can meet

Stages of development:

- 2005-2007: development of ENEP totally funded by EFAEP and managed by AIAT (the Italian Association of Environmental Engineers)
- Mid-2007: official launch of ENEP within EFAEP member associations (internal use)
- January 2009: 1000 subscribers
- September 2009: access granted to companies
- January 2011: 1500 subscribers

Rates of subscriptions

ENEP is steadily growing!

ENEP Platform vs. other web services

Other web platforms are widely used to publish online professional profiles: Monster, LinkedIn, etc.

WHAT ARE THE ADVANTAGES OF THE ENEP PLATFORM?

The ENEP Platform is tailor-made for environmental professionals because it provides:

- a dedicated classification tree of expertises and skills
- a powerful search engine
- the chance to store information about Projects & Publications
- the possibility to create a PDF profile, dynamically updated and with a standard ENEP format
- a full control on the visibility of personal and professional info

... and is restricted to environmental professionals belonging to ENEP, only!

ENEP (European Network of Environmental Professionals) is an EFAEP project
www.environmentalprofessionals.eu

NAME SURNAME

Dynamic and eclectic engineer with ten years of professional experience on environmental issues related to the energy sector. Throughout my career I have been working as researcher, teacher, consultant, lecturer and manager in several kinds of organizations, getting flexible and open minded. I have developed strong analytical skills which help me tackle complex problems and I have learned how to use advanced IT competences as a tool both for problem solving and for communication purposes. I have got used to coordinating working groups and I am strongly motivated towards challenging projects with a solid ethical background. At present my fields of expertise are: white and green certificates, renewable energies and energy efficiency, cogeneration, emissions trading and issues related to the Kyoto Protocol in general.
